

How to Log in to Cubigo

1

You can **log in** to Cubigo as follows:

Via a **web browser** (Chrome, Firefox, Edge, Safari...)

Visit <https://community.cubigo.com>

Via the Cubigo Application

Open the **application** on your device

2

Enter the **Email address** connected to your Cubigo account.

Note: If you don't have an email address, talk to your community team members – they can provide you with a generic email address to access Cubigo.

Enter your **Password**

As an option, check the box

Show my password while typing

*Note: If you have forgotten your password, click **FORGOT YOUR PASSWORD?** and follow the steps.*

Click on the blue **[Log in]** button

The screenshot shows the Cubigo login interface. At the top left is the Cubigo logo. On the right, there is a language dropdown menu set to 'EN'. The main heading reads 'Welcome, please log in'. Below this, there is a section titled 'Sign in with your email address' containing an 'Enter email' input field. Underneath is a 'Password' section with a 'Password' input field, a toggle icon (an eye), and two checkboxes: 'Show my password while typing' and 'Keep me logged in'. A prominent blue 'Log in' button is located at the bottom of the form. A link for 'FORGOT YOUR PASSWORD?' is positioned at the bottom right of the page.

Important: If you log in from a smartphone, the buttons might be in a different place than in the picture above.

Hint: If you don't want to log in each time you need to access Cubigo, make sure the box **Keep me logged in** is checked.
